Central Virginia

Small Farm Series

March 17 - October 20, 2011

(THIRD THURSDAY OF
EACH MONTH)

6:00-8:00 p.m.

LOOKING TO LEARN ABOUT OPPORTUNITIES FOR YOUR LAND???

The purpose of this workshop series is to provide basic information and production options on enterprises suitable for small acreages. The audience will be given information that will help with the initial stages of farm planning and development. They will also be exposed to an overview of production considerations for various small acreage farm enterprises. After this workshop series, participants should have a better understanding of what areas to consider as they plan their farming enterprises. Participants will be provided with resources to assist in their decision making and should be aware of where to find additional information and assistance. Workshops will be held throughout the greater Lynchburg area and include some classroom settings and some field-based settings. Dates and Topics are confirmed but specific locations for some workshops have yet to be determined.

COME TO ONE, TWO, THREE, OR ALL... YOU DECIDE!!
